WORK EXPERIENCE

EchoNous, Redmond

UX Designer | 02. 2020 – Present

Partnering with PMs, designers, and engineers to improve point-of-care ultrasound services and medical education apps to facilitate ultrasound scans and disease diagnosis.

Microsoft Research (via Myriad Consulting)

UX Designer | 09. 2019 – 01. 2020

Led UX and visual redesign for Microsoft Academic to smooth user interaction, increase user engagement, and fix readability and inconsistency issues.

Supported researchers in quickly understanding a new topic by presenting insight and trend overview through interactive multi-sense data visualizations, topic graphs and filters, and paper family features.

University of Michigan – Academic Innovation

UX Design Fellow | 11. 2018 – 04. 2019

Improved accessibility, engagement, responsiveness, and scalability of innovative online educational services through close collaboration with multi-discipline teams.

American Family Insurance, Madison, WI

Innovation Design Intern | 05. – 08. 2018

Designed a whole new concept management system for efficient concept tracking and cross-departmental cooperation. Conducted research and design prompts for ideation sessions to support concept generation and venture building. Built use cases for new concepts through storytelling and graphic design.

4xLabs, Singapore

UX Design Intern | 06. – 08. 2017

Translated business goals and user requirements into fully functional and desirable B2B Marketplace features to facilitate transactions among currency exchange agencies. Improved accessibility and delightfulness of currency exchange B2C applications.

Trend Micro, Taipei

UX Research Intern | 07. – 08. 2016

Supported improvement of a central log management software through contextual inquiry and usability testing. Conducted secondary research on business strategies of potential clients and suggested future study on market trends.

EDUCATION

University of Michigan, Ann Arbor

MS, Human-Computer Interaction | 04. 2019

Specializing in interaction design and graphic design.

University of Washington, Seattle

MS, Library and Information Science | 06. 2017

Focusing on info visualization and design methodology.

National Taiwan University, Taipei

BA, Library and Information Science | 06. 2015

Communication Certificate

Training in research methodology and info architecture.

AWARD

Airbnb & SOCHI Student Design Jam

2nd Place | 10. 2017

Proposed additional route management and visualization features on Airbnb website to support multi-item journeys.

SKILLS

Design

Brainstorming, Storyboard, Service Blueprint, System Diagram, Interaction Map, Prototype, Graphic Design

Research

Interview, Observation, Contextual Inquiry, Cultural Probes, Diary Study, Speed Dating, Card Sorting, Surveys, Usability Test, Cognitive Walkthrough, Heuristic Evaluation

Analysis

Personas & Scenarios, Competitive Analysis, Affinity Diagram, User Journey, Stakeholder Map

TOOLS

Prototyping

Sketch, Figma, Adobe XD, InVision, Principle, After Effects, Axure RP, Balsamiq

Visualization

Adobe Illustrator, Photoshop, InDesign, Tableau, R, OmniGraffle

Evaluation

Morae, UserTesting

Programming

HTML & CSS, JavaScript, XML, Python
