Yun Hsiao

7+ years of product design experience
delivering end-to-end, cross-platform solutions
for complex, data-intensive B2B / SaaS
systems across Cybersecurity, AI, and FinTech.

Work Experience

UX Designer III, F5

Seattle | 04. 2022 – Present

- Lead end-to-end redesign and migration of Bot Defense, streamlining threat investigation workflows and driving cross-functional alignment, expanding mid-market adoption with 200+ new customers over three years.
- Improve usability, accessibility, and consistency for monitoring and security configuration, and designed platform-wide features across six core F5XC products, benefiting over 1,000 enterprise clients.
- Advance F5XC design system with 10+ new components and enhance clarity and user control for data comprehension and monitoring interactions.
- Direct and support 7 usability study sessions with 60+ participants for F5XC, leading research design reviews and delivering team-wide training to ensure the collection of credible insights.

UX Designer, EchoNous

Redmond | 02. 2022 – 04. 2022

- Led end-to-end design of exam management service, partnering with cross-functional teams to reshape requirements and define product direction.
- Optimized point-of-care AI-assisted ultrasound controls and led the design and implementation of cardiac calculation features through participatory design, streamlining scanning workflows, enhancing diagnostic accuracy, and improving usability and inclusivity.
- Designed cross-platform Android applications to expand market reach.

UX Designer, Microsoft Research

Redmond (via Myriad Consulting) | 09. 2019 – 01. 2020

- Led UX and visual redesign for Microsoft Academic, enhancing interaction efficiency, readability, and consistency while driving engagement across 700K+ monthly researchers worldwide.
- Crafted interactive multi-sense data visualizations, topic graphs, and paper networks that transformed complex AI knowledge graph into actionable insights, accelerating discovery of relationships, trends, and emerging fields.

Education

Master of Human-Computer Interaction

University of Michigan, Ann Arbor | 09. 2017 – 05. 2019
