

Yun Hsiao

Product designer with 6+ years of experience
crafting end-to-end, cross-platform solutions
for complex, heavy-data B2B / SaaS systems
across Cybersecurity, AI, and FinTech.

Work Experience

UX Designer III, F5

Seattle | 04. 2022 – Present

- Lead end-to-end redesign and migration of Bot Defense, streamlining threat investigation workflows and driving cross-functional alignment, delivering over \$1.2M in annual savings for 30+ global enterprise clients.
- Improve usability, accessibility, and consistency for monitoring and security configuration, and designed platform-wide features across six core F5XC service workspaces, benefiting over 1,000 enterprise clients.
- Advance F5XC design system by creating scalable data visualization components, enhancing monitoring interactions for greater clarity and user control.
- Direct and supported large-scale usability studies for F5XC, leading research design reviews and delivering team-wide training to ensure the collection of credible insights.

UX Designer, EchoNous

Redmond | 02. 2022 – 04. 2022

- Led end-to-end design of exam management service, partnering with cross-functional teams to reshape requirements and define strategic product direction.
- Optimized point-of-care AI-assisted ultrasound controls and led the design and implementation of cardiac calculation features through participatory design, streamlining scanning workflows, enhancing diagnostic accuracy, and improving usability and inclusivity.
- Designed cross-platform Android applications to expand market reach.

UX Designer, Microsoft Research

Redmond (via Myriad Consulting) | 09. 2019 – 01. 2020

- Led UX and visual redesign for Microsoft Academic, enhancing interaction efficiency, readability, and consistency while driving engagement across 700K+ monthly researchers worldwide.
- Crafted interactive multi-sense data visualizations, topic graphs, and paper networks that transformed complex AI knowledge graph into actionable insights, accelerating discovery of relationships, trends, and emerging fields of study.

Education

Master of Human-Computer Interaction

University of Michigan, Ann Arbor | 09. 2017 – 05. 2019

Master of Library and Information Science

University of Washington, Seattle | 09. 2015 – 06. 2017
